Note: A guide for education settings about establishing 'appropriate levels' of filtering and monitoring can be found at: <https://www.saferinternet.org.uk/advice-centre/teachers-and-school-staff/appropriate-filtering-and-monitoring>

7.3.1 Decision Making

- Buxton Infant School governors and senior leadership team have ensured that our setting has age and ability appropriate filtering and monitoring in place, to limit learner's exposure to online risks.
- The governors and leaders are aware of the need to prevent "over blocking", as that may unreasonably restrict what can be taught, with regards to online activities and safeguarding.
- Our decision regarding filtering and monitoring has been informed by a risk assessment, considering our specific needs and circumstances.
- Changes to the filtering and monitoring approach will be risk assessed by staff with educational and technical experience and, where appropriate, with consent from the leadership team; all changes to the filtering policy are logged and recorded.
- The leadership team will ensure that regular checks are made to ensure that the filtering and monitoring methods are effective and appropriate.
- All members of staff are aware that they cannot rely on filtering and monitoring alone to safeguard learners; effective classroom management and regular education about safe and responsible use is essential.

7.3.2 Filtering

- Education broadband connectivity is provided through IT Just Done.
- Our Internet Provider uses a sophisticated content filter to ensure that as far as possible, only appropriate content from the Internet finds its way into school. Whilst this filtering technology is robust and generally effective at blocking unsuitable material, it is still possible for unsuitable material to occasionally get past the filter.
- All pupils and staff have been issued with clear guidelines on what to do if this happens, and parents will be informed where necessary.
 - **The procedure is to turn off monitor/screen and report the concern immediately to a member of staff.**
 - The member of staff will report the concern (including the URL of the site if possible) to the DSL or IT co-ordinator.
 - The breach will be recorded and escalated as appropriate and information given to IT Just Done.
 - Parents/carers will be informed of filtering breaches involving their child.
- Any material believed to be illegal will be reported immediately to the appropriate agencies, such as the IWF, Derbyshire Police or CEOP.

7.3.3 Monitoring

- We will appropriately monitor internet use on all setting owned or provided internet enabled devices. This is achieved by:
 - **Physical monitoring (supervision).**
 - **Recording of all device website domain requests.** The filtering system records for a minimum of one year all domains that devices within the building access. This does not invade privacy – an example being access to a particular banking website is recorded, but not login details or any data on screen.
- If a concern is identified via monitoring approaches we will:
 - **respond in line with the child protection policy.**
- All users will be informed that use of our systems can be monitored and that all monitoring will be in line with data protection, human rights and privacy legislation.

- We will ensure that any official social media use does not exclude members of the community who are

unable or unwilling to use social media channels.

- As a school we strive to achieve the best for all children, however we recognise that on some occasions parents may feel that we could have done better. We ask that careful thought is given to any posts concerning the school or individual staff members. We would be grateful if parents do not use social media to raise concerns or complaints but, instead, encourage you to come into school and speak to us so that we can understand and help to solve the problem. If parents then feel that the issue has not been dealt with appropriately, we will provide them with the Complaints Procedure. It is in all our interests to address issues without delay so that we can maintain the focus on children's welfare and learning.
- It is easy to make an entry on a site 'in the heat of the moment' but once material is on the internet it is difficult to fully erase. Such comments can be damaging to the individual and their welfare as well as, potentially, the smooth running of the school. There has been much publicity in recent times detailing the harmful effects experienced by children and adults from the misuse of social media. Inappropriate comments about staff, other parents or pupils will be addressed by the school in the same way as if these remarks were made in person, in the public domain.
- The Police will be informed and legal advice taken with respect to any comments that are threatening, discriminatory, offensive, abusive, use foul language or threaten violence.
- Although it is rewarding to hear of positive descriptions of school experience, it is important to bear in mind that other individuals may not wish to be named and situations can be misinterpreted. There are also likely to be negative consequences of posting pictures on social media which include children other than your own, without parents' permission.
- Our commitment to parents is to put the pupils' interests first and to work in partnership with parents in this endeavour. Parents co-operation in relation to the use of social media would be greatly appreciated. Enabling us to deal with any issues of concern through the appropriate process will help to maintain the focus on the school's core purpose.
